## Mission Statement

Printer Garage, founded upon service, seeks to exceed client expectations in the quality of each engagement. Our commitment to excellence extends beyond the quality of services. To inspire customer loyalty, we build relationships, anticipate and deter problems, honor deadlines and serve as an integral part of our customer's team.

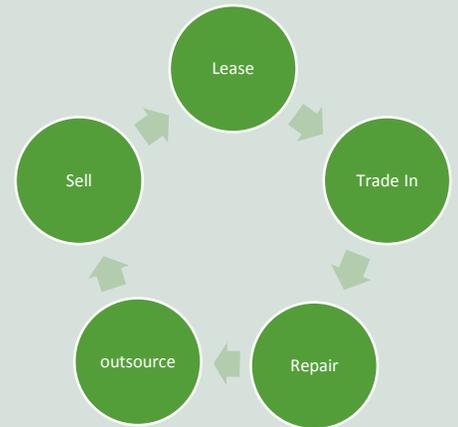

## Customer Service and Quality

Our employees at every level of the company are dedicated to integrity and diligence in all aspects of customer service. Our experienced team and state-of-the-art equipment give you the highest quality product every time, from small printer to large format and Photocopiers and everything in between.

## About the Company

Printer Garage Company, located in Doha, Bin Omran. Is well known and respected for its outstanding quality, customer service, and commitment to the environment. In business over 5 years, Printer Garage has become synonymous with quality products, services and an outstanding and loyal clientele. Printer Garage has achieved success and its fine reputation by providing excellent services

## About our Clients

Printer Garage clients include the most discerning professionals in all verticals and size. They have high expectations and challenging deadlines. They demand solid results when dealing with high expectations, and will not accept sub-standard products. Printer Garage clients represent a variety of companies from large corporations and advertising agencies, small marketing firms, schools and universities, hospitals, and even sole proprietors working from home. All our clients share the need for excellence and attention to detail in products and services.

# Company Services

## On-Site Maintenance and Repair

We offer the convenience of on-site service with same-day service and a 4-hour response time (in most areas and if we receive your service request before 12:00pm PST). Give us a call for more details and we'll get your equipment up and running before you know it.

Our factory-trained technicians thoroughly inspect all components and clean your equipment in addition to performing any repairs. Service is performed with expedience and attention to detail, and your equipment is tested for full functionality before our technician leaves your site. Our technicians have common parts used for most repairs with them at all time, or we can ship required parts directly to your business from multiple warehouses. All parts have the manufacturer's full warranty, or our own 6-month warranty, and our service is backed with a 90-day warranty on labor.

We also offer on-site, preventative maintenance service. When was the last time your equipment received a thorough inspection and cleaning? Did you know that most problems can be avoided with regular cleaning and inspection? Much like a car, this is the reason most manufacturers have recommended maintenance schedules for copiers and printers. Our preventative maintenance service extends your equipment's lifetime and prevent costly downtime.

On-site service and preventative maintenance are offered on a "as-needed" basis (you are billed for time and materials), or we can work with you to set up a contract to cover all your repair and maintenance needs.

## Maintenance and Service Agreements

Depending on your printing needs, we offer different service agreements that include maintenance service, all parts and labor for repair services, and all printing supplies (e.g. toners). For a fixed monthly cost (which can be billed monthly, quarterly or annually), you can have complete peace of mind knowing that your equipment is well-maintained, that all repairs are covered, and that all supplies are delivered right to your business.

All service agreements include scheduled preventative maintenance visits (per manufacturers' recommendations) where our technician thoroughly cleans and inspects your equipment to keep them trouble-free and in peak operating condition. Call us today to discuss a comprehensive solution for servicing and maintaining your printing equipment

Quality Service  
you can count on...

## Leasing services

A copier lease is a contract conveying the copier to you for a specific period of time in consideration of rent. The copier is owned by the copier leasing company and you make payments to the copier leasing company. To determine whether leasing a copier or buying a copier is favorable, you will first need to know the cash price for the photocopier. Use the same "length of lease term" to determine what your monthly payment would be to borrow that amount. Most copier leases include a maintenance fee in the copy machine lease. So before you compare the loan payment against the copier lease payment, strip the monthly copier maintenance fee out of the monthly photocopier lease payment.

We represent all major copier brands and network with all top copy machine dealers. Whether you're looking to buy a new copy machine or looking to lease a copier, we're here to help you get your best copier lease price!

## Toner Original and Compatible

We supply all brands and models of toners for printers and photocopiers original and compatible on call bases and long term contract.

Compatible toner with long term contract help the customer to get free service of his machines after achieving amount of purchased agreed between Printer Garage.

All customer have contract with us can use our compatible toners from us to save money as added value from Printer Garage
